*You are an ambassador for the future of hunting. Always consider how others will view your activities. Do not hunt, display, or discharge firearms in a careless manner or in close proximity to any residence, residential area, school, church, or place of business. Never hunt or erect stands within 50 yards of any public right-of-way or neighboring property. Never discharge a firearm from or across any public right-of-way.

*All hunting activities should be conducted in an ethical manner. Hunters are the minority in an increasingly urban society comprised mostly of non-hunters. Avoid public display of harvested game. Dispose of carcasses and offal in a responsible manner.

*Keep your leased lands free from garbage and litter and in compliance with company requirements, and local, state, and federal regulations. Promptly remove and properly dispose of abandoned camps, appliances, abandoned stands, and other refuse. Dumping or littering is expressly prohibited. You should periodically inspect and remove all trash and litter you find.

*Alcohol and hunting do not mix. Hunting while under the influence of alcohol or drugs of any kind is a violation of your lease and will result in forfeiture of that privilege.

*Develop and maintain a good relationship with local conservation and law enforcement officers. Know who to contact and what steps to take in case of a medical or other emergency, prepare for an emergency before it happens.

*Recreating on THE LANDOWNER'S land is a privilege. All members, guests, and invitees are expected to conduct their activities accordingly.

MEMBER INDEMNIFICATION AND HOLD HARMLESS AGREEMENT:

WHEREAS, **Crane Bay Hunting Club** (Lessee) has entered into a Hunting Lease ("Lease") with "**The Landowner**", through its manager The Campbell Group, LLC, and Cross City Forest Company³⁹ (Lessor) concerning the "Lands" as described in that Lease and each guest/member/invitee of Lessee and desires to use the Lands for the purposes of hunting as authorized by the Lease.

NOW THEREFORE, each member / invitee individually agrees as follows, (by signing Application, Sign in Sheet or by Letter):

1. That Lessor, its agents, servants, employees and representatives have made no representations regarding the suitability of the Lands for the purpose of hunting, the relative safety or risks and hazards of entering upon said Lands and/or risks associated with participating in such activities. The member is fully aware of the general risks and hazards associated with the activities of hunting, and/or traversing improved and unimproved terrain and voluntarily has elected to enter upon said Lands, appreciating that the condition of the Lands may be and/or become hazardous or dangerous either with regard to the physical condition of the Lands and/or the hunting and related activities thereon.

2. The member understands and agrees that in furtherance of his/her safety (and that of others) the **Member** shall comply with all federal, state or local laws, rules and regulations, including but not limited to hunting laws and regulations.

3. The member, for himself/herself, his/her heirs, executors and administrators agrees to indemnify and save harmless Lessor, its agents, servants, employees, representatives, contractors, insurers, successors and assigns from and against any and all claims, demands, loss, damage, expenses (including without limitation, attorney's fees, and costs), litigation, injuries, deaths, property damage and liabilities resulting from or in any way arising out of the exercise of the Lease and use of the Lands. As a part of this indemnification, guest/member/invitee of Lease agrees, upon request by Lessor, to assume, without expense to Lessor and with counsel approved by Lessor, the defense of any such claim, demand, action or cause of action, including the payment of all attorney's fees, expert witness fees, and any and all other costs. This paragraph shall survive the termination of this Lease.

Safety:

These are suggestions not rules.

"The life you are saving is yours' or your loved one". Remember you cannot tell when you are too safe, only when you were not safe enough.

1. Vehicles should be parked on the same side of road that dogs are running on. If another group is already there, park on the same side they are on. This permits a safe zone for everyone to shoot in.

2. Stand next to your vehicle with passenger door closed.

3. Do not walk into the woods without other members of you hunting party knowing you will be out there.
